## Keuringen en certificerings administratie

### Winpact

Winpact is het programma voor de administratie van al uw keuringen, inspectie en certificerings werkzaamheden. Al sinds 1994 is Winpact de standaard software voor het certificeren van hijs- en hefgereedschappen en volgt naast de NEN en EN normen de werkvoorschriften van de Vereniging van Erkende Keurbedrijven Hijs- & Hefmiddelen (EKH). In de loop van de tijd zijn er diverse uitbreidingen bijgekomen, zoals bijvoorbeeld sjormiddelen.

### Testformulieren

Maar ook andere controles, inspecties of keuringen die niet direct gerelateerd zijn aan de hijs- en hefgereedschappen kunnen worden vastgelegd sinds de introductie van de module Test-/Inspectie-formulieren. Hierbij kunt u denken aan trappen, ladders, steigers, spreaders, platenklemmen, maar bijvoorbeeld ook brandblussers, machines of reddingsboten. De mogelijkheden zijn vrijwel onbeperkt, dus als u (periodiek) controles uitvoert en de resultaten hiervan eenvoudig wilt vastleggen is Winpact de aangewezen oplossing om dit te doen.

### Documenten

Naast het vastleggen van de keuring- en inspectieresultaten van bijvoorbeeld arbeidsmiddelen, is het ook belangrijk dat u en uw klanten snel kunnen beschikken over handleidingen, berekeningen en andere informatie die bij deze arbeidsmiddelen horen. Hiervoor kan Winpact worden uitgebreid met de module Document Management. Met deze module kunt u bij artikelen, certificaten en keurings- en inspectierapporten eenvoudig aanvullende documenten vastleggen en desgewenst afdrucken als bijlage van het certificaat of inspectierapport.

### Webpact

Uw klanten willen tegenwoordig het liefst op elk gewenst moment op elke willekeurige plaats snel kunnen beschikken over de laatste certificaten en keuringsresultaten. Dit is mogelijk met de module Webpact. Hiermee kunt u per klant de certificaten en rapporten via het internet op een beveiligde website beschikbaar stellen. Als u gebruik maakt van de module Document Management kunnen deze certificaten en rapporten zelfs worden aangevuld met bijvoorbeeld de bijbehorende handleiding of berekeningen, zodat de klant direct alle noodzakelijke informatie beschikbaar heeft.

### Koppelingen

Uiteraard zijn er nog veel meer mogelijkheden. Denk hierbij aan het direct koppelen van een NEN3140 tester, de klantgegevens uit uw administratie, een digitale pen, RFID apparatuur, speciale labelprinters en nog veel meer!

 CERTIFICATE HOISTING EQUIPMENT

Ondergetekende verklaart namens zijn firma, dat ondergetekende gegevens juist zijn en dat het constructieve ontwerp van het te keuren apparaat overeenstemt met de bepalingen van de EN 12526 Richtlijn van de Europese Gemeenschap. Het is de verantwoordelijkheid van de gebruiker van het apparaat om de aanwijzingen te volgen.  
 The undersigned certifies on behalf of his company, that these particulars are correct and that the described hoisting equipment is according to the requirements of the EC Machinery Directive 89/392/EEC. It is the responsibility of the user of the equipment to follow the instructions for use as a completed entity, according to the knowledge of practice.

Vlicomp B.V.

Industriestraat 14 K4,  
 Tel: (0113) 257257

4462 EZ Goes (NL)  
 E: info@vlicomp.nl

### Algemeen:

- Moderne schermopbouw
- Uitgebreide zoekmogelijkheden
- Stabiele database (Microsoft SQL server)
- Integratie met Microsoft Office
- Prullenbak functionaliteit (bewaartermijn)
- Vastleggen keurmeester en handtekening

### Afdrukken:

- Intelligente certificaat lay-out (o.a. handtekening)
- Aanmaken PDF bestanden
- Versturen via e-mail
- Uitgebreide rapportage
- Kopie certificaten
- Klantspecifieke aanpassingen

### Klant communicatie:

- Certificaten via website beschikbaar (Webpact)
- Certificaten voorzien van aanvullende documenten
- Periodieke mailing voor herkeuring/inspectie

### Documentbeheer:

- Koppelen (en afdrukken) van extra documenten bij:
  - Certificaten
  - Inspectierapporten
  - Artikelen
  - Keurmeesters

### Koppelingen:

- Gegevens uit ERP systeem
- Klantgegevens uit administratie
- Fabrikanten/leveranciers uit administratie
- Artikelgegevens uit administratie
- Secutest NEN3140 tester
- Trekbank uitlezing/aansturing
- RFID tags verwerken
- Digitale Pen (voorkom overtypen gegevens)
- Barcodeprinters

### Systeemeisen:

- Werkstation: Windows XP, Vista, 7, 8, 8.1, 10
- Server: Windows Server 2003, 2008, 2008R2, 2011, 2012, 2012R2, 2016
- Optioneel ondersteuning Terminal Server
- Database: Microsoft SQL Server 2005, 2008, 2008R2, 2012, 2014, 2016 (Express Editie gratis beschikbaar)
- Remote support: Internettoegang voor Teamviewer
